

ARION AUDIO

Elegantly Handcrafted Stereo Amplifiers

S – 500

The Resolution Series is designed for the discerning music lover who wants the ultimate in sonic purity with explosive dynamics and startling impact. The presentation is tonally accurate, the harmonic structure is complete and the “in the room” presence is realistic.

S-500 stereo power amplifiers are part of the “Resolution Series” from Arion Audio. With 500 WPC into 8 ohms and 1000 WPC into 4 ohms, the S-500 can power even the most demanding loudspeakers with ease. The S-500 is a balanced differential design with the output stage being a high speed pulse-width modulated switching design. The S-500 is equipped with both a balanced and single ended inputs. A 15-amp IEC-connector is provided. Input and output connectors are high quality gold-over-copper construction. The S-500 can be powered up continuously due to its low idle power usage. This insures the best performance at all times.

We invite you to experience the exquisite sonic performance of Arion Audio Amplifiers for yourself.
